

CRM:111 Positioning For:

Silk CRM: 110
 GDUs to Silk: 1370
 GDUs to Phy. Mat.: 2680

MANAGEMENT COMMENTS

- Early silking 111 CRM Optimum® AQUAmax® that features Leptra® insect protection technology for control of difficult above ground ear feeding insects.
- Excellent performance across a range of yield levels from the tough dryland to higher yielding irrigated environments.
- Excellent late-season plant health coupled with good mid-season brittle stalk resistance.
- Good overall leaf disease package including exceptional Goss's wilt tolerance.

REFUGE

Integrated Refuge

- 95% (AVBL, YGCB, HX1, LL, RR2)
- 5% (LL, RR2)

SUITABILITY RATINGS

KEY ENVIRONMENTS

Goss's Prone Fields Highly Suitable

SUITABILITY

High Residue Suitable
 Late Harvest Suitable
 Corn After Corn Highly Suitable

SOILS

Early Planting/Cold Soils Suitable
 Coarse Textured Soils Highly Suitable
 Drought Prone Soils Highly Suitable
 Poorly Drained Soils Suitable
 High pH Soils Insufficient Data

CHARACTERISTIC SCORES

Drought Tol.	9
Stress Emergence	5
Root Strength	5
Stalk Strength	5
Mid-Season Brittle Stalk	6
Ear Ht.	7
Plant Ht.	6
Grain Drydown	5
Hybrid Family	P1122

DISEASE SCORES

Goss's Wilt	7
Gray Leaf Spot	5
No. Leaf Blight	6

TRAIT SCORE RATINGS: 9 = Excellent; 1 = Poor; Blank = Insufficient Data.

* Introductory product. Quantities may be limited.

IMPORTANT: Trait rating scores provide key information useful in selection and management of Pioneer® brand products in your area. Information and ratings are based on comparisons with other Pioneer brand products, not competitive products. Information and scores are assigned by Pioneer Research Managers. Scores are based on period-of-years testing through 2021 harvest and were the latest available at time of printing. Some scores may change after 2022 harvest. Scores represent an average of performance data across areas of adaptation, multiple growing conditions, and a wide range of both climate and soil types, and may not predict future results. All products within a hybrid family receive the same score unless observations indicate a significant difference. Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision. Refer to www.pioneer.com or contact a Pioneer sales professional for the latest and most complete listing of traits and scores for each Pioneer brand product and for product placement and management suggestions specific to your operation and local conditions.
