

Corn Grain:  
**P1093**

Additional Products in this Family: P1093AMXT (AMXT,LL,RR2) | P1093 | P1093Q (Q,LL,RR2)

**CRM:110**  
Silk CRM: 113  
GDUs to Silk: 1400  
GDUs to Phy. Mat.: 2700

Positioning For:

**MANAGEMENT COMMENTS**

- Widely adapted for dryland to fully irrigated acres.
- Moderate brittle snap resistance with above average stalks and superior root strength.
- Suitable option for fields with known Goss Wilt pressure.
- Consider fungicide applications in fields with a known history of severe Grey Leaf Spot pressure.
- Excellent grain quality with food grade potential.

**MARKET SEGMENTS**

YFC: Yellow food corn

**SUITABILITY RATINGS**

**KEY ENVIRONMENTS**

Goss's Prone Fields Suitable

**SUITABILITY**

High Residue Suitable  
Late Harvest Highly Suitable  
Corn After Corn Suitable

**SOILS**

Early Planting/Cold Soils Suitable  
Coarse Textured Soils Suitable  
Drought Prone Soils Suitable  
Poorly Drained Soils Suitable  
High pH Soils Highly Suitable

TRAIT SCORE RATINGS: 9 = Excellent; 1 = Poor; Blank = Insufficient Data.

**ESTIMATED SEEDING RATE**

Contact your Pioneer sales professional for additional information. Planting rate estimates provided for informational purposes only. Information here is provided for a hybrid family and not individual products. Product performance is variable and depends on many factors, such as soil type, management practices, environmental stress, disease, and pest pressure. Individual results may vary. Planting rate and seeding costs have been increased by 5% to account for early season stand loss.

Environment: STANDARD SITES | Hybrid: P1093AMXT | Seed Cost: \$3.50 | Grain Price: \$3.50

IMPORTANT: Trait rating scores provide key information useful in selection and management of Pioneer® brand products in your area. Information and ratings are based on comparisons with other Pioneer brand products, not competitive products. Information and scores are assigned by Pioneer Research Managers. Scores are based on period-of-years testing through 2021 harvest and were the latest available at time of printing. Some scores may change after 2022 harvest. Scores represent an average of performance data across areas of adaptation, multiple growing conditions, and a wide range of both climate and soil types, and may not predict future results. All products within a hybrid family receive the same score unless observations indicate a significant difference. Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision. Refer to [www.pioneer.com](http://www.pioneer.com) or contact a Pioneer sales professional for the latest and most complete listing of traits and scores for each Pioneer brand product and for product placement and management suggestions specific to your operation and local conditions.
