

PIONEER® BRAND VORCEED™ ENLIST® CORN PRODUCTS

P12904V™ 112 CRM/113 Silk CRM

INTRO

Vorceed™ Enlist® corn will enable multi-year flexibility to manage your corn rootworm (CRW) across through more options than any other CRW product with multiple modes of action to control insects and tough weeds to help you maximize your ROI opportunities. Superior yield potential and agronomics from one of the largest corn germplasm libraries in the industry round out the product package for a whole corn solution.

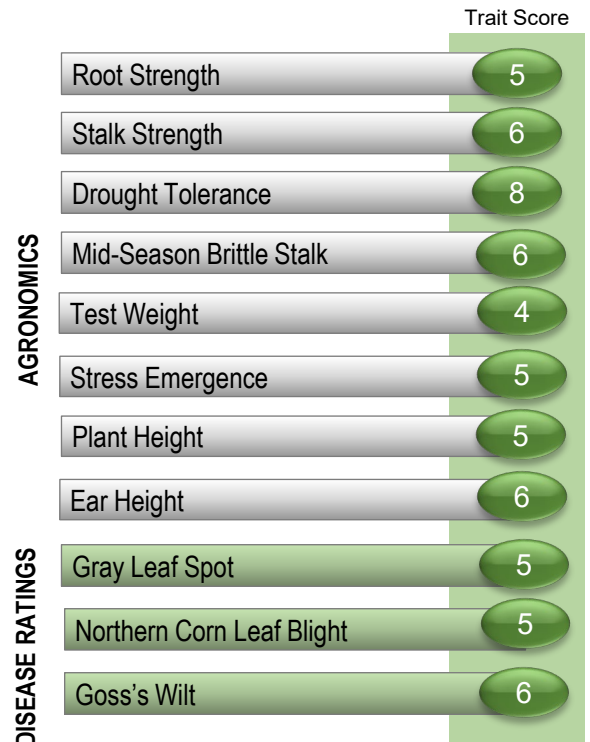

Management Insights

- Versatile hybrid with solid yield performance and strong agronomics across a host of environments
- Offers excellent drought tolerance for tougher acre needs
- Good late season plant health and strong stalks
- Performs best at moderate seeding rates

Suitability and Placement Guide

- High Yield Environment
- Poorly Drained Soils
- Continuous Corn
- Late Harvest
- High Residue
- Drought Prone Soils

Ratings: 9 = Excellent; 1 = Poor; Blank = Insufficient Data or variety not tested for that particular trait. Ratings denoted with a double asterisk (**) reflect preliminary data subject to change when additional data becomes available.

P12904v™

V – Vorceed™ Enlist® products with V, LL, RR, ENL. Contains a single-bag integrated refuge solution with multiple modes of action for above- and below-ground insects. The major component contains the Herculex® XTRA genes, the RW3 trait and the VTP trait. In EPA-designated cotton growing counties, a 20% separate corn borer refuge must be planted for Vorceed Enlist products.

LibertyLink® and the Water Droplet Design are trademarks of BASF.

Roundup Ready® is a registered trademark used under license from Monsanto Company. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® brand agricultural herbicides. Roundup® brand agricultural herbicides will kill crops that are not tolerant to glyphosate.

RR2 - Contains the Roundup Ready® Corn 2 trait that provides crop safety for over-the-top

applications of labeled glyphosate herbicides when applied according to label directions.

Corteva products are launched in accordance with Corteva Agriscience launch policies and Excellence Through Stewardship Product Launch Guidance. Grain and byproducts produced from Vorceed™ Enlist® corn material cannot be marketed in jurisdictions where not authorized, including Mexico, until the applicable approval is granted. Refer to <http://www.biotradestatus.com/> for updated information on regulatory status, as well as <http://www.traitstewardship.com/> for additional stewardship requirements.
